

Table of Contents, 1953-2003
Proceedings of the University of Maryland
Nutrition Conference for Feed Manufacturers

**1953 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 6. University of Maryland, College Park
G.F. Combs, Sr., Conference Committee Chairman.**

Table of Contents

Recent Broiler Nutrition Research

G.F. Combs, Sr., University of Maryland

Breed and Strain Comparisons

C.S. Shaffner, University of Maryland

Floor Space Requirements

P.F. Twining, University of Maryland

Respiratory Disease

I.M. Moulthrop, Maryland Livestock Sanitary Service

Quality Control in Purchasing Feed Ingredients

C.D. Caskey, Cooperative Mills, Inc.

Broiler Mash Formulation

G.F. Combs, Sr., University of Maryland

**1954 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 25-26. University of Maryland, College Park, MD
G. L. Romoser, Conference Committee Chairman.
C.D. Caskey, Cooperative Mills, Inc., Chairman, Maryland Feed Industry Committee**

Table of Contents

Some Aspects of the Metabolism of Rumen Bacteria
Doetsch, R.N., University of Maryland, Department of Bacteriology

Volatile Acid Metabolism of Ruminants
Brown, R.E. University of Maryland, Dairy Husbandry

New Developments and Swine Nutrition
Krider, J.D., McMillen Feed Mills

Evaluation of Feeds for Cattle
Shaw, J.C., University of Maryland, Dairy Husbandry

Formulation of Concentrates for Dairy Cattle
Caskey, C.D., Cooperative Mills, Inc., Baltimore, MD

Tomorrow's Rations for Dairy Cows
L.A. Shaw, University of Maryland, Dairy Husbandry

Effect of Fat Intake upon Milk Production
Ensor, W. L., University of Maryland, Dairy Husbandry

Protein Levels Methionine Supplementation of Broiler Rations
Combs, G. F., University of Maryland, Poultry Husbandry

Effect of Antibiotics on Calcium Utilization by Chickens
Shaffner, C.F., University of Maryland, Poultry Husbandry

Influence of Certain Drugs on Vitamin K. Requirement of the Chick
Sweet, G.B., University of Maryland, Poultry Husbandry

Results Obtained with Arsenicals in Broiler Feeds
Romoser, G.L., University of Maryland, Poultry Husbandry

Present Status of Unidentified Factors Required by Poultry
Combs, G. F., University of Maryland, Poultry Husbandry

Use of Animal Fats and Poultry Feeds
Dansky, L. M., D.A. Stickwell & Sons, Inc.

Feeding Layer and Breeder Chickens
Wilkie, H. L., Ralston Purina Co.

Maryland Needs More Laying Flocks
Rice, W. H., University of Maryland, Poultry Husbandry

Feeding for Productive Health
Robertson, E.I., John W. Eshelman and Sons

Effect of Insoluble Grit on a Weight and the Efficiency of Broilers
Romoser, G.L., University of Maryland, Poultry Husbandry

Results Obtained with Added Fat in Broiler Trial
Donaldson, W. E., University of Maryland, Poultry Husbandry

Methionine Supplementation of Turkey Starting and Growing Rations
Twining, P.F., University of Maryland, Poultry Husbandry

**1955 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 17-18. Shoreham Hotel, Washington, D.C.
G. L. Romoser, Conference Committee Chairman.
T. S. Reinke, Chairman, Maryland Feed Industry Council.**

Table of Contents

New Developments in Swine Nutrition.
Barrick, E. R., North Carolina State College

New Developments in Broiler and Turkey Nutrition.
Briggs, G. M., U. S. Department of Health, Education and Welfare

New Approach to Formulation of Poultry Rations Based on Research.
Combs, G. F., University of Maryland

Evaluation of Ingredients for Poultry Rations.
Combs, G. F., University of Maryland

Poor Quality Roughages in Ruminant Rations.
Davis, R. F., University of Maryland

Utilization of Urea and Other Sources of Non-Protein Nitrogen by Ruminants.
Davis, R. F., University of Maryland

Constructing Concentrate Feeds for Dairy Cattle.
Davis, R. F., University of Maryland

Evaluation of Laboratory Procedures for Studying Ruminant Nutrition.
Doetsch, R. N., Dept. of Bacteriology, University of Maryland

Meeting Amino Acid Requirements for Poultry and Swine.
Fritz, J. C., Dawe's Laboratories, Inc.

Progress in Current Research on Bloat.
Jacobson, D. R., University of Maryland

Formulation of Supplements for Swine and Beef Cattle.
Leffel, E. C., University of Maryland

Fishery Products for Feeding Poultry and Swine.
Nilson, H. W., U. S. Fish and Wildlife Service

Studies on Feather Meal, Poultry By-Products Meal and Methionine in Broiler Rations.
Romoser, G. L., University of Maryland

Studies on Anti-Oxidants and High Efficiency Rations for Poultry.
Singsen, E. P., University of Connecticut

Minerals in Animal Nutrition: Recent Advances.
Titus, H. W., Lime Crest Research Laboratory

Progress in Current Research with Dairy Cattle.
Shaw, J. C., University of Maryland

Frontiers of Research in Animal Nutrition.
Shaw, J. C., University of Maryland

**1956 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 22-23. Shoreham Hotel, D.C.**

G. L. Romoser, Conference Committee Chairman.

T. S. Reinke, Chairman, Maryland Feed Industry Council.

Table of Contents

The Effect of Dietary Energy Level on Methionine Requirements.

Baldini, J. T., E. I. DuPont de Nemours and Company

Maryland Research—Recent C/P Ratio Work, Methionine Studies, Sub-Station Broiler Trials and Fat Studies.

Combs, G. F., University of Maryland

Unidentified Growth Factors.

Combs, G. F., University of Maryland

Concepts Concerning the Evaluation of the Useful Energy of Feeds.

Crampton, E. W., MacDonald College, McGill University, Quebec, Canada

Efficiency and Economy of Grain Feeding for Milk Production.

Davis, R. F., University of Maryland

Maryland Research—Management and the Production Value of Forages, Production and Absorption of Metabolites from the Rumen, Concentrates for Milk Production, Protein Levels for Calves.

Davis, R. F., University of Maryland

Evaluation of the Energy Content of Poultry Feed Stuffs—Studies of the Energy Nutrition of Layers.

Hill, F. W., Cornell University

Antibiotics in Nutrition and Stress.

Jukes, T. H., American Cyanamid Company

Antibiotics and Vitamins in Swine Nutrition.

Luecke, R. W., Michigan State College

Mineral Imbalance in Swine Dermatitis.

Luecke, R. W., Michigan State College

Maryland Research—Studies with Chicks and Poults Involving Dienestrol Diacetate; Furazolidone Arsanilic Acid, Coccidiostats, Antibiotics and Poultry By-Products.

Romoser, G. L., University of Maryland

Current Research with Ruminants at Maryland.

Shaw, J. C., University of Maryland

Improvements in Maryland Broiler Production Efficiency.

Twining, P. F., University of Maryland

Hormones and Antioxidants in Animal Nutrition.

Wilgus, H. S., Peter Hand Foundation

APPENDIX (Calculation of "Partial Nutritional Worth").

**1957 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 21-22. Shoreham Hotel, Washington, D.C.
G. L. Romoser, Conference Committee Chairman.
J. M. Herrold, Chairman, Maryland Feed Industry Council.**

Table of Contents

- A comparison of Protein Supplements in Broiler Finishing Rations.
Runnels, T. D., University of Delaware, Newark
- Protein-Energy Studies with Laying Hens.
Denton, C. A., USDA, Beltsville, MD
- Research at Maryland—Tracer Studies of Volatile Fatty Acid Production by Rumen Microorganisms.
Leffel, E. C., University of Maryland
- Energy Relationships in Dairy Cattle Feeding.
Loosli, J. K., University of Maryland
- Rumen Additives and Their Place in the Ration.
Loosli, J. K., University of Maryland
- Methods of Feeding Swine.
Wingert, F. C., University of Maryland
- Recent Developments in Baby Pig Nutrition.
Hanson, L.E., University of Minnesota, St. Paul
- The Nutrition of Caged Layers.
Couch, J. R., Texas A&M College, College Station
- Recent Advances in Turkey Nutrition.
Couch, J. R., Texas A&M College, College Station
- Better Feeds Through Feed Microscopy.
Walls, H. R., Maryland State Inspection Service, College Park
- Further Studies on Energy-Protein Relationships, Fat and Amino Acid Requirements.
Combs, G. F., University of Maryland
- Unidentified Growth Factor Studies with Poults.
Supplee, W. C., University of Maryland.
- Maryland Studies in Ruminant Nutrition.
Shaw, J. C., University of Maryland.
- Results of Field Research—Studies on Depletion and Carry-Over of Unidentified Growth Factors.
Romoser, G. L., University of Maryland
- Reports of Maryland Research—Factors of Importance in Evaluating Concentrate Rations for Dairy Cows.
Davis, R. F., University of Maryland

**1958 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 20-21. Shoreham Hotel, Washington, D.C.
R. D. Creek, Conference Committee Chairman.
J. M. Herrold, Chairman, Maryland Feed Industry Council.**

Table of Contents

Advances in Mineral Nutrition of Ruminants.

Davis, G. K., University of Florida, Gainesville

Rumen Study Techniques, Volatile Fatty Acid Production and Bloat.

Leffel, E. C., University of Maryland

Studies with Laying Hens.

Combs, G. F., and N. V. Helbacka, University of Maryland

Relation of Nutrition of the Rumen to Intermediary Metabolism of the Ruminant.

Shaw, J. C., University of Maryland

Do Modern Broilers Taste Better?

Brant, A. W., USDA, Beltsville, Maryland

Studies with Practical Broiler Rations.

Combs, G. F., University of Maryland

Recent Developments in Mineral Nutrition of Poultry and Swine.

Briggs, G. M., National Institutes of Health, Bethesda, Maryland

The Efficient Use of Forages and Concentrates for Dairy Cattle.

Davis, R. F., University of Maryland

Studies on the Nutrition of Laying Hens.

McGinnes, J., State College of Washington, Pullman

Studies with Growing-Fattening Swine.

Wingert, F. C., University of Maryland

Improvement in the Nutritional Value of Cereal Grains by Water Treatment and Enzyme Supplements.

McGinnis, J., State College of Washington, Pullman

Zinc, Potassium, and Unidentified Growth Factors in Purified Poult Diets.

Supplee, W. C., University of Maryland

Practical Studies with Broiler Chickens and Turkey Fryers Involving C/P, Temperature, Minerals, Hormones, and Flavors.

Romoser, G. L. and N. V. Helbacka, University of Maryland

Recent Developments in Swine Nutrition.

D. V. Catron, University of Maryland

**1959 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 19-20. Shoreham Hotel, Washington, D.C.
R. D. Creek, Conference Committee Chairman.
B. P. Quillin, Chairman, Maryland Feed Industry Council.**

Table of Contents

Feed Effect on Milk Fat Production and Growth.
 Ensor, W. L., University of Maryland

Some Physiological Affects of Large Amounts of Concentrates in the Ration of the Dairy Cow.
 Hemken, R. W., University of Maryland

Eggs, Energy, and Efficiency.
 Bird, H. R., University of Wisconsin

The Control of Coccidiosis—Man or Medicine.
 Cover, M. S., University of Delaware

Studies with Chicks and Poults.
 Creek, R. D., University of Maryland

Twilight Areas in Calf Nutrition.
 Jacobson, N. L., Iowa State College

Additives in Dairy Rations.
 Jacobson, N. L., Iowa State College

Ruminant Metabolism of Volatile Fatty Acids.
 McCarthy, R. D. Pennsylvania State University

Broiler Nutrition.
 Combs, G. F., University of Maryland

The Protein and Amino Acid Nutrition of Swine.
 Becker, D. E., University of Maryland

Laying Hen Nutrition.
 Middendorf, D. F. and N. V. Helbacka, University of Maryland

Effects of Hormones on the Growth and Fattening of Swine.
 Young, E. P., University of Maryland

Studies on Bloat, Hypomagnesemia and Volatile Fatty Acid Production in the Rumen.
 Leffel, E. C., University of Maryland

Zinc, Potassium and Unidentified Growth Factor Effects in Purified Chicken and Turkey Diets.
 Supplee, W. C., University of Maryland

**1960 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 17-18. Shoreham Hotel, Washington, D.C.,
R. D. Creek, Conference Committee Chairman.**

Table of Contents

Phosphorus in Broiler Rations.

Fuller, Henry L., University of Georgia

Restricted Feeding of Pullets.

Fuller, Henry L., University of Georgia

Methods for Calculating Diets and Substitution Equivalents.

Creek, R. D., University of Maryland

Studies on Udder Edema and Forage Utilization.

Hemken, R. W., University of Maryland

Newer Evidence Concerning the Feeding of Antibiotics to Swine.

Teague, H. S., Ohio State University

Protein and Energy Requirements of Laying Hens.

Combs, G. F., University of Maryland

Recent Contributions of Metabolic Studies to Ruminant Nutrition.

Williams, W. F., University of Maryland

Nutrition and Environmental Temperature Studies with Broilers.

Pope, D. L., University of Maryland

The Economical Feeding of Lactating Cows.

Huffman, C. F., Michigan State University

Studies on Egg Shell Quality.

Helbacka, N. V., University of Maryland

Studies with Chicks.

Creek, R. D., University of Maryland

Practical Broiler Ration Studies.

Combs, G. F., University of Maryland

Factors Affecting the Voluntary Feed Intake of Dairy Cows.

Vandersall, J. H., University of Maryland

Studies Concerning the Requirements of Poultry for Calcium, Magnesium, Potassium and Zinc.

Supplee, W.C., University of Maryland

Studies of the Effect of Pelleting on Swine Rations, and of Nutrition on Swine Carcasses.

Young, E. P., University of Maryland

Maryland Research—Diet and Rumen Volatile Fatty Acid Production.

Leffel, E. C., University of Maryland

**1961 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 16-17. Shoreham Hotel, Washington, D.C.
R. D. Creek, Conference Committee Chairman.
W. J. Brenner, President, Maryland Feed Industry Council.**

Table of Contents

Economical Feeding of Dairy Cattle.

Davis, R. F., University of Maryland

Amino Acid availability and fish meal quality.

Ousterhout, L. E., Fish & Wildlife Service

The Role of Vitamin E, Antioxidants and Selenium in Poultry and Livestock Nutrition.

Bieri, J. G., National Institutes of Health

Studies on Vegetable Oils and Full-fat Soybean Products in Chick Nutrition.

Nesheim, M. C., Cornell University

Iron, Copper and Zinc in Swine Nutrition.

Wallace, H. D., Florida Agricultural Experiment Station

Feeding Hogs for Meatier Pork and the Value of Pelleting Feeds for Swine.

Wallace, H. D., Florida Agricultural Experiment Station

Nitrogen Utilization by Lactating Cows.

Steward, W. E., University of Maryland

Practical Turkey Nutrition.

Creek, R. D., University of Maryland

Pesticide Residues.

King, R. L., University of Maryland

Some Factors Influencing Bone Development in Poults.

Supplee, W. C., University of Maryland

Egg Quality Studies.

Helbacka, N.V, University of Maryland .

Maryland Broiler Nutrition Studies.

Combs, G. F., University of Maryland

Experimental Bloat and Dietary Factors Affecting Rumen Acid Production.

Leffel, E. C., University of Maryland

Further Studies of the Influence of Nutrition on Swine Carcasses and of Methods of Feeding Swine.

Young, E. P., University of Maryland

Nutrition Studies with Laying Hens.

Combs, G. F., University of Maryland.

**1962 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 8-9. Shoreham Hotel, Washington, D.C.
Jack Harrison, President, Maryland Feed Industry Council.**

Table of Contents

Fats and Amino Acids in Swine Rations.

Lewis, D.

Feeding Broiler Type Breeding Hens.

Singsen, E. P.

The Elusive Balanced Ration (For Swine).

Hofer, J. A.

Mycotoxins: Symptoms and General Aspects.

Forgacs, J.

Efficient Utilization of Energy and Protein in Dairy Cattle Rations.

Reid, J. T.

Dietary Factors Affecting Rumen Acid Production.

Leffel, E. C., University of Maryland

Vitamin A Requirements of Beef Cattle.

Klosterman, E. W.

The Effect of Pelleted Hay and Heated Corn on Milk Composition, Rumen Volatile Fatty Acids, and Milk Production.

Hemken, R. W. and R. L. King, University of Maryland

Magnesium Requirements of Chicks and Poults.

Keene, O. D., University of Maryland

Factors Influencing Pigmentation of Skin and Yolk.

Childs, G. R.

Minerals in Poultry Nutrition.

Savage, J. E.

Studies on the Effect of Pelleting Forages and of Grain Level on Calf Growth.

Vandersall, J. H., University of Maryland

Protein Utilization of Swine on Restricted Energy Consumption.

Young, E. P., University of Maryland

Effect of Dietary Vitamin A on the Severity of Coccidiosis and Infectious Bronchitis Infection in Growing Chickens.

Panda, G., G. F. Combs, and H. M. Devolt, University of Maryland

Maryland Nutrition Studies with Broilers and Laying Hens.

Combs, G. F., University of Maryland

Calculation of Partial Nutritional Worth

Combs, G. F., University of Maryland

**1963 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 14-15. Shoreham Hotel, Washington, D.C.
Stokes Homan, President, Maryland Feed Industry Council.**

Table of Contents

Ingredient Quality Control.

Hardin, J. O., University of Maryland

Feeding and Managing Meat Type Breeders.

Sherwood, D. H., Cooperative Mills, Inc., Bridgeville, De

The Effect of Nitrogen Fertilization on the Feeding Value of Corn Silage.

Hemken, R. W. and J. H. Vandersall, University of Maryland

Modern Nutritional Considerations for the Sow and Suckling Age Pig.

Sewell, R. F., University of Georgia, Athens

Vitamin E, Antioxidants, and Pigmentors as Feed Additives for Poultry.

Matterson, L. D., University of Connecticut

The Calcium and Phosphorus Requirements of Poultry.

Peeler, H. T., International Minerals & Chemical Corp. Skokie, Il

Some Effects of Methionine Supplementation of Hens.

Spandorf, A. H., University of Maryland

Menhaden Fish Meal as a Protein Supplement to Practical Swine Diets.

Young, E. P. and R. R. Kifer, University of Maryland

A New Look at Feeding Recommendations for Lactating Dairy Cows.

Davis, R. F., R. W. Hemken, J. L. Cason, J. H. Vandersall, University of Maryland; and C. D.

Caskey, Cooperative Mills, Inc., Baltimore, Maryland

Maryland Broiler Nutrition Studies.

Combs, G. F., University of Maryland

Studies on Urea Supplementation of High Roughage Rations and on Bloat.

Leffel, E. C., University of Maryland

The Influence of Added Fat from Various Sources on the Performance and Carcass Characteristics of Growing-finishing Steers.

Wise, M. B., E. R. Barrick, T. N. Blumer, I. J. Ellis, jr., and T. H. Jackson, N.c. Ag. Exp. Station
All Concentrate Rations for Beef Cattle.

Wise, M. B. and E. R. Barrick, N. C. Agricultural Experiment Station

Maryland Nutrition Studies with Laying Hens.

Childs, G. R., University of Maryland University of Maryland

Nutritional and Environmental Studies in Broilers. Nutritional Studies in Growing Turkeys and Turkey Breeders.

Milligan, J. L., J. O. Hardin, P. N. Winn, and J. Nicholson

Observations on the Effect of Several Minerals in Poultry Feeds

Supplee, W. C., University of Maryland

Appendix: U of MD Tentative Specifications for Crumbled or Pelleted Broiler Ration. Fall & Winter.

**1964 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 12-13. Shoreham Hotel, Washington, D.C.
Edgar Quillin, President, Maryland Feed Industry Council**

Table of Contents

Metabolizable Energy in Poultry Feed Formulation.

Sibbald, I. R., Research Dept., John Labatt Limited, London, Ontario, Canada

Nutritional Studies with Broilers.

Hardin, J. O., University of Maryland

Energy Utilization in Fattening, Growth and Lactation.

Kleiber, Max, University of California, Davis

Beef Cattle: Feeds and Feeding Behavior.

Putnam, Paul, U.s. Department of Agriculture

Vitamin E Deficiencies in Domestic Animals.

Calvert, C. C., Poultry Res. Branch, Animal Husbandry Res. Division, ARS, Beltsville, Maryland

Recent Sow Research.

Speer, V. C., Iowa State University, Ames

Mycotoxins Iii. Aflatoxicosis—a Literature Survey.

Armbrrecht, B. H., Fda, Washington, D.C.

The Effect of Dietary Protein Levels on Resistance to Infection.

Hill, C. H., North Carolina State, Raleigh

Energy Utilization by Lactating Dairy Cattle.

Flatt, W. P., C. E. Coppock, L. A. Moore, ARS, Beltsville, Maryland, W. E. Stewart, R. W.

Hemken, and R. F. Davis, University of Maryland

Lijited Feeding of Growing-finishing Pigs.

Speer, V. C., Iowa State University, Ames

Effect of Forage Moisture Content upon Dry Matter Intake and Rumen Acid Production in Sheep.

Leffel, E. C., University of Maryland

Further Studies of Protein and Amino Acid Needs of Broilers.

Combs, G. F., University of Maryland

An Anemic Condition of Unknown Etiology in Chickens.

Porter, J. E., Fda, Washington, D.C.

The Influence of Energy and Protein Levels on Performance Characteristics of Finishing Swine.

Young, E. P., University of Maryland

The Effect of Ration on Milk Fat Percentage and Composition.

Vandersall, J. H., R. W. Hemken, and J. E. Kunsman, University of Maryland

Effect of Fat Source and Level on Egg Weight.

Blamberg, D. L., University of Maryland.

**1965 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 18-19. Shoreham Hotel, Washington, D.C.**

Table of Contents

Mycotoxins.

Durbin, C. G., Veterinary Medical Director, Div. of Vet. Med., FDA

Feed Additives—Residues and Tolerances.

Frost, D. V., Abbott Laboratories, North Chicago, IL

The Salmonella Problem.

Porter, J. E., Div. of Vet. Med., Food and Drug Administration, Washington D.C.

Non-protein Nitrogen and Poultry Litter in Ruminant Diets.

Chance, C. M., University of Maryland

Recent Developments in Turkey Nutrition

Potter, L. M., Virginia Polytechnic Institute, Blacksburg

Recent Developments in Mineral Nutrition of Poultry

Peeler, H. T., Intn'l Minerals and Chemical Corp., Slokie, IL

Studies on Mineral Needs of Poults.

Supplee, W. C., University of Maryland

Feeding for "Dairy Beef."

Kesler, E. M., Penn State University

Rearing Broiler-type Replacement Pullets.

Singsen, E. P., University of Connecticut

New Techniques—Induced Milk Fever by Hemodialysis.

Stewart, W. E., University of Maryland

Pesticide Residues.

King, R. L., University of Maryland

Experimental Design in Broiler Nutrition Studies.

Potter, L. M., Virginia Polytechnic Institute, Blacksburg

Mineral Interrelationships.

Ammerman, C. B., University of Florida, Gainesville

Mineral Deficiencies of Cattle.

Leffel, E. C., University of Maryland

Horse Nutrition.

Leffel, E. C., University of Maryland

Complete Rations for Finishing Beef Cattle.

Oltjen, R. R., USDA

Chelation and Feed Formulation.

Scott, M. L., Cornell University

Fats and Fatty Acids in Animal Nutrition.

Young, R. J., Cornell University

Vitamin and Antibiotic Levels in Broiler Rations.

Fritz, J. D., Dawe's Labs., Inc., Chicago, IL

Corn Silage—The Occurrence of Goiter in Calves.

Vandersall, J. H., University of Maryland

Evaluation of Fish Products in Broiler Nutrition.

Leong, K. C., Bureau of Commercial Fisheries Tech. Lab., College Park, MD

Energy and Protein Intake—Effects on Carcass Merit.

Young, E. P., University of Maryland

Amino Acid and Protein Level on Feed Intake and Body Composition.

Combs, G. F., University of Maryland
**1966 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 24-25. Shoreham Hotel, Washington, D.C.**

Table of Contents

- Influence of Pelleting on the Nutritive Value of Feedstuffs and Complete Diets.
Slinger, S. J., Ontario Agricultural College, University of Guelph
- Kinds and Amounts of Protein for Dairy Cattle.
Thomas, J. W., Michigan State University
- Protein Requirements of Ruminants in Retrospect and Prospect.
Garrigus, U. S., University of IL
- Dietary Protein and Amino Acid Levels for Maximum Growth and Carcass Leanness of Swine.
Pond, W. G., Cornell University, Ithaca, NY
- Detrimental Effects of Raw Wheat Germ in Chick Diets.
Creek, R. D., University of Maryland
- Protein Levels for Broiler Breeder Grower and Layer Feed.
Harms, R. H., University of Florida, Gainesville
- Observations on the Requirements of Turkeys for Folic Acid and Vitamin E.
Supplee, W. C., University of Maryland
- Unidentified Hatchability and Progeny Growth Factors in Turkey Nutrition.
Touchburn, S. P., Ohio Agricultural Research and Development Center, Wooster
- Tailor Made Rations for Laying Hens to Meet Individual Flock Needs.
Naber, E. C., The Ohio State University, Columbus
- What Controls Voluntary Feed Intake in the Ruminant.
Jacobson, D. R., University of Kentucky
- Metabolism of Lipids in the Rumen.
Katz, I., University of Maryland
- Changes in Fiber Methods.
Van Soest, P. J., USDA, Beltsville, MD
- Interrelationships of Nutrient Requirements of Large Animals.
Leffel, E. C., University of Maryland
- The Animal Drug Amendments to the Federal Food, Drug and Cosmetic Act.
Brower, H. H., Dow Chemical Company
- Intake Levels During Early Lactation of the Dairy Cow.
Hemken, R. W., University of Maryland
- Current Status of Pesticide Residue Work at Maryland.
King, R. L., University of Maryland
- Early Nutritional Influences on Swine Carcass Characteristics.
Young, E. P., University of Maryland
- Observations Concerning the Rearing and Processing of Broilers by Separate Sexes.
Blamberg, D. L., University of Maryland
- FDA Regulations and Nutrition Research.
Leffel, E. C., University of Maryland
- Studies on Lysine for Chickens.
Thomas, O. P., University of Maryland.
- Investigational Drug Regulations.
Boyd, L. H., American Feed Manufacturers Assoc., Chicago, IL
- Investigational Use of Veterinary Drugs.
Kingma, F. J., FDA.

**1967 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 30-31. Sheraton Park Hotel, Washington, D.C.**

Table of Contents

- Linoleic Acid and Reproduction in the Hen.
Calvert, C. C. and H. Menge, USDA, Beltsville
- Residues in Poultry Tissues.
Okamoto, M., USDA, Beltsville
- Coccidiosis and Nutrient Absorption.
Turk, D. E. and J. F. Stephens, Clemson University, SC
- Effect of Processing on the Utilization of Soybeans.
Childs, G. R. Central Soya Company, Decatur, IN
- Nutrient Requirements as a Function of Calorie Intake.
Crampton, E. W., Macdonald College, Quebec, Canada
- Plant Selection and Fertility Balance: Factors Influencing Herbage Composition and Feeding Value.
Teel, M. R., American Farm Research Assoc., West Lafayette, IN
- Vitamin E in the Dairy Ration and Oxidized Flavor in Milk.
King, R. L., University of Maryland
- Tables of Feed Composition and Their Use.
Crampton, E. W., Macdonald College, Quebec, Canada
- The Practical Significance of Mycotoxins.
Campbell, T. C., Virginia Polytechnic Institute, Blacksburg
- Mineral Nutrition of the Baby Pig.
Miller, E. R., Michigan State University
- Studies on Perosis in the Young Chick.
Leach, R. M., Jr., USDA
- Factors Which Affect the Young Chick's Requirement for Phosphorus.
Fritz, J. C., FDA
- Long Range Implications of the World Food Problem.
Combs, G. F., University of Maryland
- Long Range Implications of the World Food Problem.
Combs, G. F., University of Maryland
- Non-protein Nitrogen in Diets for Ruminants.
Loosli, J. K., Cornell University, Ithaca, NY
- A Challenge to Ruminant Agriculture.
Putnam, P. A., L. A. Moore and N. D. Bayley, USDA
- Corn Silage as the Sole Forage for Dairy Cows.
Vandersall, J. H. and R. W. Hemken, University of Maryland
- Studies on Amino Acid and Energy Levels in Broiler Rations.
Combs, G. F., University of Maryland
- Further Studies of Early Nutritional Influences on Swine Carcass Characteristics.
Young, E. P. and W. R. Bounds, University of Maryland
- Delaying the Sexual Maturity of Broiler Breeder.
Peacock, R. G., University of Maryland
- Copper Sulfate in Broiler Rations.
Creek, R. D. and N. V. Helbacka, University of Maryland
- Blood Plasma Titres in Relation to the Amino Acid Nutrition of the Chick.
Scott, H. M., University of IL

**1968 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 28-29. Sheraton Park Hotel, Washington, D.C.**

Table of Contents

- Selenium in Nutrition and Metabolism.
Scott, M. L. and J. N. Thompson, Cornell University, Ithaca, Ny.
- Future of Improved Grain Varieties and Their Feeding Potential.
Cline, T. R. and J. L. Krider, Purdue University, Lafayette, In.
- A Report on the Use of Supplemental Biotin for Commercial Poultry Feeds.
Richardson, C. E., Roche Chemical Division, Nutley, Nj.
- Fish Meals Around the World: Their Nutritive and Economic Values..
Ousterhout, L. E., Univ. Of Ri, Kingston.
- Studies with Sodium, Calcium, Phosphorus and Selenium in Broiler Feeds.
Nott, Hugh., University of Maryland.
- How Far with Phase Feeding.
Caskey, C. D., Cooperative Mills, Inc., Baltimore, Maryland.
- Feed Restriction Studies with Lambs.
Patnayak, B. C., E. C. Leffel and D. F. Wilson, University of Maryland.
- Growth and Feed Efficiency in Relation to Maternal Nutrition.
Chow, B. F. and R. Q. Blackwell, Johns Hopkins Univ., Baltimore; U.s. Naval Medical Research Unit No. 2, Taipei, Taiwan, Republic of China.
- Loss of Protein Digestibility in Stored Forages.
C. H. Gordon, USDA, Beltsville, Md.
- The Potassium Requirement of the Ruminant.
Hemken, R. W. and K. Pradhan, University of Maryland.
- Effect of Nutrition on Reproduction.
Pope, L. S., Oklahoma State University, Stillwater.
- Early Dietary Influences on Swine Growth and Carcasses.
Bounds, W. R. and E. P. Young, University of Maryland.
- Investigation of Apparent Amino Acid Digestibility as a Method to Determine Protein Quality.
Payne, W. L., University of Maryland.
- The Influence of Dehydrated Whole Corn Plant Pellets and Silage to Concentrate Ratios on Milk Production and Composition.
Vandersall, J. H. and R. W. Hemkin, University of Maryland.
- Amino Acid Requirements of Broilers and Laying Hens.
Combs, G. F., University of Maryland.
- Methods of Delaying Sexual Maturity of Broiler Breeder Pullets and Their Effects of Rearing and Intial Laying Period Performances.
Peacock, R. G., E. Bossard, and G. F. Combs, University of Maryland.
- Fat Utilization by the Young Pig.
Frobish, L. T., USDA
- Energetic Efficiency of the Sow.
Clawson, A. J., North Carolina State University, Raleigh.

**1969 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers,
March 20-21. Sheraton Park Hotel, Washington, D.C.**

Table of Contents

- Availability of Mineral Nutrients.
Fritz, J. C., Fda, Washington, Dc
- Feed Regulation - Then and Now.
Heagy, A.b., University of Maryland.
- A Review of Fat Utilization and Absorption by Livestock and Poultry.
Hathaway, H. D., Procter & Gamble Company, Cincinnati, Oh.
- The Energy Requirement of Breeders for the Production of Broiler Chicks.
Runnels, T. D., University of Delaware.

Coelho, Mike, Basf Corporation, Animal Nutrition Tech. Services, Mt. Olive, Nj.
- Growing the Large Male Broiler for Further Processing-dietary Energy Consideration.
Waldroup, Park, University of Arkansas, Fayetteville.
- Amino Acid Requirements During the Withdrawal Period.
Thomas, Owen P., University of Maryland, College Park.
- Efficacy of Phytase on Phosphorus Utilization.
Soares, Joseph, University of Maryland, College Park.
- Practical Application of Cation-anion Difference in Dairy Rations.
Beede, Dave, Michigan State University, East Lansing.
- Potential for Improving Productive Efficiency of Lactating Dairy Cows Through Use of Ionophores.
Mcguffy, Ken, Elanco Animal Health, Greenfield, In.
- Practical Feeding Strategies for Bst Treated Dairy Cows.
Willis, Calvin, Cmw Nutrition, Corona, Ca.
- Prediction of Body Tissue Mobilization in the Dairy Cow.
Komaragiri, Madhav, University of Maryland, College Park.
- The Avian Digestive Tract: its Integrity and Inhabitants.
Miles, Richard, University of Florida, Gainesville.
- Physical and Functional Characteristics of the Gastrointestinal Tract During Early Posthatching Development.
Sell, Jerry, Iowa State University, Ames.
- Effect of Oxidant Stress on Gastrointestinal Structure and Function.
Dibner, Julia, Novus International, Inc., St. Louis, MO.

1996 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers, March 21-22. Stouffer's Harborplace Hotel, Baltimore
John A. Doerr, Conference Committee Chairman.
Fred Scott, President, Maryland Feed Industry Council.

Table of Contents

- Animal Drug Availability and the Impact of Legislative Changes.
Sundlof, Stephen, Fda, Rockville, MD.
- Designer Foods from Designer Feeds.
Leeson, Steve, University of Guelph, Ontario, Canada.
- Broiler Chickens' Response to Diet Energy.
Leeson, Steve, University of Guelph, Ontario, Canada.
- Phosphorus, Trace Minerals and Amino Acid Utilization in Chickens and Pigs Fed Microbial Phytase and 1-hydroxycholecalciferol.
Baker, David, University of Illinois, Urbana.
- Strain and Diet Effects on Growth of Broiler Breeders.
Lilburn, Mike, the Ohio State University, Wooster.
- Effect of Betaine on Invasion and Development of the Avian Coccidia and Growth Performance in Coccidia Infected Chicks.
Augustine, Patricia, USDA-ARS, Beltsville, MD.
- Factors Affecting the Quality of Feed Grade Fats and Oils.
Garrett, Roger, Diversified Laboratories, Inc., Chantilly, Va.
- Lysine, Methionine, and Threonine Requirements for Broilers During the Withdrawal Period.
Kharlakian, Henry, University of Maryland, College Park.
- Influence of Ruminant Carbohydrate and Nitrogen Metabolism on Intestinal Amino Acid Supply of Lactating Cows.
Stern, Marshall, University of Minnesota, St. Paul.
- Challenges in Evaluating and Feeding Corn Silage – Lessons Learned from Feeding the 1993 and 1994 Corn Crops.
Mahanna, William, Pioneer Hi-bred International, Inc., Des Moines, Ia.
- Feeding Strategies to Reduce Nutrient Losses to the Environment.
Kohn, Richard, University of Maryland, College Park.
- Methods to Determine Dietary Adequacy of Amino Acids with Specific Reference to Amino Acid Oxidation.
Ball, Ron, University of Guelph, Ontario, Canada.
- Endocrine Responses, Growth Performance and Carcass Quality in Domestic Animals Treated with Excitatory Amino Acids.
Estienne, Mark, University of Maryland, College Park.
- Enhanced Performance in Commercial Broiler Flocks with Subclinical Infectious Bursal Disease When Fed Diets Containing Increased Levels of Vitamin E.
McIlroy, George, Ross Breeders Limited, Newbridge, Midlothian, Uk
- Interactions Between Nutrients and Infectious Disease.
Klasing, Kirk, University of California, Davis.
- Vitamins and the Immune Response of Farm Animals.
Weber, Gilbert, F. Hoffmann-la Roche Ltd., Basel, Switzerland.

**1997 Proceedings of the University of Maryland Nutrition Conference for Feed
Manufacturers, March 20-21. Stouffer's Harborplace Hotel, Baltimore**
John A. Doerr, Conference Committee Chairman.
Jim Adams, President, Maryland Feed Industry Council.

Table of Contents

Progress in Development of Corn for Nutrient Potential.

Stilborn, Heather, Pioneer Hi-bred International, Inc., Johnston, Ia.

Farming Without Uncle Sam: How to Assure Feed Grains in the Future.

Avery, Alex, Center for Global Food Issues, Hudson Institute.

Bovine Spongiform Encephelopathy: Managing Risk in the Face of Uncertainty.

Hueston, William, Va-md Regional College of Vet. Med., University of Maryland,
College Park.

Evaluation of Feedstuffs: Reflecting on Nir, the Future, and Beyond.

Van Kempen, Theo, Rhone-poulenc, Animal Nutrition, Antony, France.

25-OH-D₃: New Scientific Insights into its Role in Commercial Poultry Production.

Calabotta, David, Anitech, Inc.

Organic Zinc Sources and Performance and Health in Poultry.

Ferket, Peter, Nc State University.

Salmonella Control in Feed.

Richardson, Kurt, Anitox Corp., Buford, Ga.

Experiences of the Beef Cattle NRC.

Fox, Daniel, Cornell University, Ithaca, Ny.

Formulating Diets of Dairy Cattle on the Basis of Amino Acids.

Chalupa, William, University of Pennsylvania.

Milk Urea Nitrogen: Theory and Practice.

Kohn, Richard A., University of Maryland, College Park.

High Moisture Corn in Lactating Cow Rations: Digestion, Metabolism and Performance.

Knowlton, Katharine, University of Maryland, College Park.

Photoperiodic Effects on Lactation: Can Supplemental Lighting Supplement Your Income?

Dahl, Geoffrey E., University of Maryland, College Park.

Eve, the Snake and the Apple - Nutrition Misinformation Throughout the Ages.

Macdonald, Helen Bishop, McGill College, Montreal, Canada.

1998 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers, March 12-13. Renaissance Harborplace Hotel, Baltimore
John A. Doerr, Conference Committee Chairman.
Linda Tufft, President, Maryland Feed Industry Council.

Table of Contents

- Nutrient Management for Crop Land – What Does it Mean for You.
Steinhilber, Patricia, University of Maryland, College Park.
- Potential Market for Designed and Functional Foods.
Watkins, Bruce, Purdue University, West Lafayette, In.
- Retainable Phosphorus Requirements for Broilers.
Coon, Craig, University of Arkansas, Fayetteville.
- Fatty Acid Modifiers of Biochemical and Molecular Actions in Bone Modeling.
Watkins, Bruce, Purdue University, West Lafayette, In.
- Use of Broiler Growth Modeling Technology in Live Production Strategic Planning.
Fancher, Bryan, Omnus, Inc., O'Fallon, MO.
- Amino Acid and Metabolizable Energy Requirement for Layers.
Coon, Craig, University of Arkansas, Fayetteville.
- Relationship of Drinking Water Quality and Broiler Performance on Delmarva.
Zimmermann, Nickolas, University of Maryland, College Park.
- Taking Nutrition Technology to the Farm.
Messman, Mike, Cargill Animal Nutrition Center, Elk River, Mn.
- Accelerated Heifer Growth: Nutrient Requirements and Effects on Lactation and Profitability.
Van Amburgh, Mike, Cornell University, Ithaca, NY.
- The Ensiling Process: Basic Principles.
Bolsen, Keith, Kansas State University, Manhattan.
- Improving Silage Preservation Efficiency and Quality.
Bolsen, Keith, Kansas State University, Manhattan.
- Milk Replacers and Calf Nutrition.
Scott, Troy, Milk Specialties Co., Dundee, Il.
- Post-pelleting Liquid Application Systems for Natuphos® Phytase.
Vahl, Jan, Feed Production Consultant, Gennep, the Netherlands.
- Impact of Microbial Phytase on the Digestibility of Protein, Amino Acids, and Energy in Broilers.
Ravindran, V., Et. Al., the University of Sydney, Australia.
- Least Cost Formulation with Natuphos.
Mcknight, Fraulene, BASF Corporation.

1999 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers, March 10-12.

John Doerr, Conference Committee Chairman

Renee L. Skidmore, President, Maryland Feed Industry Council.

Table of Contents

Protein Quality and Amino Acid Digestibility of Animal Protein Meals.

Parsons, Carl M., University of Illinois, Urbana.

Nutritional Management of the Growing-finishing Pig: Basic Concepts and New Ideas.

Rademacher, Meike, Degussa A.g, Feed Additives Division, Germany

“J” Virus Update.

Poole, Don, Degussa Corporation, Kennesaw, Ga.

Digestible Amino Acid Requirements for 10-21 and 35-43 Day-old Broilers.

Coon, Craig, Milan, University of Arkansas, Fayetteville.

What Does the Future Hold for Feed Enzymes?

Dalboge, Henrik, Enzyme Research, Bagsvaerd, Denmark.

Responses to Vitamin D₃ Metabolites by Poultry.

Edwards, Jr., Hardy M., University of Georgia, Athens.

Laboratory Accuracy in Phosphorus Analysis (Feed Ingredients).

Auman, Steve, Pcs, Feed Products, Raleigh, NC.

Application of Enzymes Other than Phytase in the Feeding of Poultry.

Bedford, Michael, Finnfeeds, Wiltshire, England.

Application of Phytase for Retention of Nonphosphorus Nutrients.

Kornegay, E. T., VPI and State University, Blacksburg.

Phosphorus in Broilers: Maximizing Retention.

Angel, Roselina, University of Maryland, College Park.

Intestinal, Parasitism, Host Immunity and Dietary Modulation in Avian Coccidiosis.

Lillehoj, Hyun S., USDA, Beltsville, MD

Increasing the Conjugated Linoleic Acid Content of Eggs and Associated Effects on Selected Egg Characteristics.

Sell, Jerry L., Iowa State University, Ames.

Phosphorus Requirements in Dairy Cattle.

Satter, Larry D., USDA, Beltsville, MD.

Dairy Nutrient Planning: Management Components and Software Applications.

Dou, Zhengzia, University of Pennsylvania, Kennett Square.

Milk Urea Nitrogen Target Concentrations for Lactating Dairy Cows.

Jonker, Jamie, University of Maryland, College Park.

New Concepts in Swine Finishing: Raising Pigs like Broilers?

Brumm, Michael C., University of Nebraska, Concord.

Leptin: a Regulator of Feed Intake and Physiology, but Is it Relevant to Agriculture? An Update.

Ramsey, T. G., USDA, Beltsville, MD

Regulatory Perspectives.

Powell, Royden, Maryland Department of Agriculture.

Soil and Plant Perspectives.

Coale, Frank, University of Maryland, College Park.

Nutrition Perspectives.

Kohn Rick, University of Maryland, College Park.

Large Animal Producer Perspectives.

Fry, Robert C., Dvm.

2000 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers, March 22-24. Renaissance Harborplace Hotel, Baltimore
John Doerr, Conference Committee Chairman
Charles Zeiler, President, Maryland Feed Industry Council.

Table of Contents

An Introduction to the History of Rendering: the Evolution of Voluntary Programs and Biosecurity in the Industry – the Regulatory Pertinence.

Franco, Don, Dvm, Mph, Dacvpm

Effect of Natuphos on the Bioavailability of Energy and Protein.

Southern, Lee, Louisiana State University, Baton Rouge.

Factors Influencing the Application of Dry and Liquid Natuphos in Pelleted Feed.

Aicher, Eric, Basf Corporation, Gastonia, Nc.

Vitamin E Requirement of the Pig.

Mahan, Don, Ohio State University, Columbus.

Recent Developments in Vitamins and Broiler Nutrition.

Whitehead, Colin, Roslin Institute, Edinburgh, Scotland.

Meeting the Challenge of Farm-to-fork: Haccp.

Lavorgna, Mark, Perdue Farms, Inc., Salisbury, MD.

Immunology and Gut Function.

Dibner, Julia, Novus International, Inc., St. Louis, MO.

Microbial Standards: Meet 'Em or Beat 'Em.

Waldroup, Amy, University of Arkansas, Fayetteville.

Nutritional Programs for Broiler and Turkey Breeders.

Lilburn, Mike, the Ohio State University, Wooster.

Optimizing Microbial Proteins in the Dairy Cow.

Calscheur, Ken, University of Maryland, College Park.

Antibodies May Alter Body Fat and Feed Intake Inflexibility.

Cartwright, Lee, Texas A&m University, College Station.

Feeding Programs for Broilers: the Challenge of Low Protein Diets.

Waldroup, Park, University of Arkansas, Fayetteville.

European Perspective on Antibiotic Bans.

Ratcliff, Jon, Food and Agriculture Consultancy Services, England.

GM Grains: Lessons from the 1999 Harvest.

Porter, Leah, American Crop Protection Association, Washington, D.C

**2001 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers, May 1-2. Holiday Inn Select - North Baltimore
John Doerr, Conference Committee Chairman**

Table of Contents

- Update on Issues in the Animal Feed Industry.
Sellers, Richard, AFIA
- The Challenges of Antimicrobial Resistance.
White, David G., Fda, Washington, Dc.
- Changes in Antibiotic Resistance Observed in Farm Animals.
Fedorka-gray, Paula, Narms, USDA
- Nitrogen Strategies in Poultry: Dietary Changes to Decrease Environmental Losses.
Patterson, Paul H., Pennsylvania State University, University Park.
- Probiotics in Broilers: Modulation of Intestinal Immune Function.
Doerr, John, University of Maryland, College Park.
- Use of Phytase and High Available Phosphorus Corn in Broiler Diets: Impact on Litter Phosphorus Levels and Solubility.
Saylor, W. W., University of Delaware, Newark.
- Stochastic Programming: Implications for Precision Feeding.
Roush, W. B., Pennsylvania State University, University Park.
- Phosphorus Requirements for Broilers and Effect of Phytase, Citric Acid, and 25-hydroxycholecalciferol on Phosphorus Availability for Broilers and Turkeys.
Angel, Roselina, University of Maryland, College Park.
- Phytase in Poultry Diets: Where Do We Stand?
Radcliffe, J. S., Virginia Tech., Blacksburg.
- The 2001 NRC Nutrient Requirements of Dairy Cattle: Energy Supply and Requirements.
Weiss, Bill, the Ohio State University, Wooster.
- 2001 NRC Nutrient Requirements of Dairy Cattle: Changes in Protein Requirements.
Erdman, Richard, University of Maryland, College Park.
- 2001 NRC Nutrient Requirements of Dairy Cattle: Changes in Vitamin and Mineral Requirements.
Beede, David, Michigan State University
- Comparison of the Nutrient Requirements of Dairy Cattle for 1989 and 2001.
Kohn, Richard, University of Maryland, College Park.

**2002 Proceedings of the University of Maryland Nutrition Conference for Feed Manufacturers, March 27-28. Holiday Inn Select - North Baltimore.
Roselina Angel and Nick Zimmermann, Conference Committee Chairs.**

Table of Contents

- Update on Issues in the Animal Feed Industry.
Rydell, Jim, AFIA
- Potential for New Introduced Livestock Diseases.
Wilson, Terry, USDA/APHIS
- Dealing with Animal Welfare Issues: Proactive Strategies and Voluntary Regulations
Estevez, Inma, University of Maryland, College Park.
- Emerging Air Quality Issues and the Impact on Animal Agriculture: Management and Nutritional Strategies.
Powers, Wendy, Iowa State University, Ames
- Impact of Diet on Odor.
Van Kempen, Theo A., North Carolina State University, Raleigh.
- New Methods to Increase Gastrointestinal Development at Hatch and Improve Neonatal Digestive Function in Poultry.
Ferket, Peter R., North Carolina State University, Raleigh.
- Functional Genomics: Applications to Nutrition.
Ashwell, Chris, USDA/ARS, Beltsville, MD.
- Interactions Between Nutrition and Immunity: Implications for Animal Production Systems.
Koutsos, Elizabeth A., University of California, Davis.
- Near-and Mid-infrared Reflectance as Tools for Ingredient Real Time Analysis: Implications for Precision Formulation.
Van Kempen, Theo A., North Carolina State University, Raleigh.
- Multifactorial Analysis of the Effects of Microbial Phytase in Broiler Nutrition.
Rosen, Gordon, Pronutrient Services Ltd., London, England.
- Amino Acid Metabolism in Dairy Cows.
Bequette, B. J., University of Maryland, College Park.
- Modeling Amino Acid Metabolism and Requirements for Dairy Cattle.
Hanigan, Mark D., Purina Mills, Llc, St. Louis, MO
- Rumen-protected Amino Acids: Why, What and When?
Lapierre, Helene, Dairy and Swine R&d Research Centre, Lennoxville, Quebec, Canada.
- Analysis and Quality Assessments of Corn and Other Silages.
Ward, Ralph T., Cumberland Valley Analytical Services, Inc., Maugansville, MD.
- Improving the Aerobic Stability of Silages with *Lactobacillus Buchneri* 40788.
Kung, Jr., Limin, University of Delaware, Newark.
- Vitamin D₃ and D₃ Metabolites in Poultry Feeding Programs.
Applegate, Todd J., Purdue University, West Lafayette, IN.
- Trends in Poultry Feeding All Vegetable Diets and Environmental Concerns.
